Firm Background:

Logan Capital Management, Inc. is a privately owned investment advisory firm offering customized portfolio management to private and institutional investors. Logan Capital goes beyond traditional investment analysis to identify compelling opportunities in the right industries at the right time.

Investment Style:

- Logan Large Cap Growth focuses on companies with above-average growth relative to their peers
- The approach is top down, with a focus on those industries or sectors poised to outperform over the long-term
- Buy discipline includes a macroeconomic analysis, a sector analysis and allocation review, an analysis of the stocks' fundamentals, and a final technical analysis for confirmation
- Sell discipline includes changes in fundamentals, changes to the sector or industry outlook, and technical analysis for confirmation

Portfolio Information:

- Equity universe – U.S. traded firms with market capitalization of over \$5 billion
- Maximum sector exposure is the greater of 2 times the Russell 1000 Growth weighting or 20% of portfolio value
- Holdings generally range from 35-45 stocks

Investment Process:

Our investment universe consists of US traded, large (minimum market cap of \$5 billion) capitalization stocks with superior past and prospective earnings growth rates. This formula has been in place since the inception of the portfolio. We begin with a top-down, macroeconomic analysis of the markets, followed by specific sector/industry analysis and allocations. Technical analysis confirms security selection and guides buy/sell points of entry.

Logan Large Cap Growth Composite contains fully discretionary large cap growth equity accounts. For comparison purposes the composite is measured against the Russell 1000 Growth index. The minimum account size for this composite is \$1 million.

Logan Capital Management, Inc. has prepared and presented this report in compliance with the Global Investment Performance Standards (GIPS®).

Logan Capital Management, Inc. is a privately owned registered investment adviser. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual management fees. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Additional information regarding the policies for calculating and reporting returns is available upon request.

The investment management fee schedule is as follows: 80 basis points on the first \$25 million, 70 basis points on the next \$25 million, 50 basis points on the next \$25 million and 45 basis points on the \$25 million thereafter. The investment advisory fees charged for accounts whose market value exceeds \$100 million are negotiable. Accounts under \$10 million will be charged a flat 1.00% per annum. Actual investment advisory fees incurred by clients may vary.

The Logan Large Cap Growth Composite was created October 1, 1997. **Effective August 1, 2000, Logan Capital Management, Inc. acquired the investment advisory accounts of Berwind Investment Management, L.P., and no material change in personnel responsible for the investment management process occurred.

Logan Capital Management, Inc.'s compliance with the GIPS standards has been verified for the period April 1, 1994 through December 31, 2008 by Ashland Partners & Company LLP. The Logan Large Cap Growth product has been audited by Ashland Partners & Company LLP. A copy of the verification report is available upon request.
